“ Experience

Frédérique Luzy is a French artist.

Fascinated by the sound since her childhood, she began a career as a classical guitarist.

Following her musical studies in Paris, France, she graduated from a Master's degree in Music Performance at the Maastricht Conservatorium in the Netherlands, from a Master's degree in Didactics with Great Distinction and Aggregation of Higher Education at the Conservatoire Royal de Musique de Liège, Belgium. Several research on the creative gesture of the musician led her to consider the role of the artist beyond the performance.

As a chamber musician, she gave Masterclasses and performed on prestigious venues throughout Europe, USA, Canada, North Africa, and Thailand. Certified Professor, she transmitted her passion through musical pedagogy for 26 years, from 1995 to 2022 in France and abroad,

She shared many festivals with renowned artists such Anne Sofie von Otter, Odair Assad, Ensemble Itinéraire, and played for many National Radios.

Frédérique Luzy was awarded a 'Diapason d'or' for her Spanish and Argentinian dances recording with the Duo Resonances at Calliope Records - an album which also received an iTunes favorite upon its release.

In 2018, she radically changed her transmission vision and graduated from a Master's degree in coaching. Top of her class, she was given special honours for her great creativity.

Deep experimentations on the link between the body & the consciousness led her to create the Chorégraphie de l'Être and to become a real Sound and Words Alchemist. As an innovative artist, Frédérique Luzy, aspires to lead the change of consciousness through the vibration. Her voice, carried by the power of love, helps to recreate unity and balance between the opposite worlds.

Deeply connected to the Universe, in July 2021, she intuitively integrates by her singing one of the greatest teachings - the 64 original sacred frequencies - which, like the Flower of Life, recreate Universal Harmony in human DNA. This integration will lead her a few months later to record in the Studio Sequenza her album A KA THA - the vibration of Hebrew letters (vocals & drums).

From Artist to Leader of Change, Frédérique Luzy stands out for her totally unclassifiable musical universe, on the borders of between two worlds. Between Art & Science, She reveals herself as a Rainbow linking the universal harmonics to the original sacred frequencies of the depths of the Earth.

She is the Author of the A KA THA Trilogy - an Album, an Oracle & a Book - a true Ode to Love which reveals her as a Musician, Singer and Poet of the Living.

During Summer 2023, strongly called to her guitar, she reconnects with her original sacred sounds. Coming from ancient times, they inspire her to tune her instrument in a color totally different from the traditional tuning of her classical guitar.

It is the frequency of the heart, based on the scordatura in F which now resonates on its strings.

Two very distinct lives seem to cross but it is always the Love of the sound, the stage and her audience that drives her. Ancestral knowledge and skills have enriched her sound palette and made her Art an authentic Medicine of the Heart.

“

Divine vibrational purity.

A truly magnificent and very rich album. I recommend it for your intuitive dances, meditation sessions and energy care. “A KA THA” speaks to your heart and all your body cells.

Congratulations to our dear Frédérique Luzy. – [Amazon](#)

What to say? The handling of the drum and vocals is perfect. Truly a composition that give a feeling of shaman ritual. Perfect for hose who want to relax and practice yoga. Great for my yoga playlist. I can't wait to listen more of your tracks. :) – [Proxima Centauri](#)

Dear Frédérique, congratulations on this inspiring project that elevates the body and mind. Magical drumming and spontaneous voice in direct connection with the senses, I am impressed. [Thomas Vingtrinier - Sound Engineer and Director of Studio Sequenza](#)

This voice is really awesome! I could listen it all day! – [Unique Playlists](#)

Your sound quality is really good – [Lunngfern](#)

Nice composition. I really enjoyed the melodies and the beautiful atmosphere. Nice warm and deep voice. – [Listnerd](#)

I started listening to your songs on Spotify. It's fascinating to me. Deep, powerful, beautiful, soothing. Something that comes from the depths of the universe, from the bowels of the earth, from the dawn of time, something profoundly timeless (...). – [D. François](#)
